The Inquiry-Based Learning methodology which informs Q: Skills for Success Fourth Edition is a hallmark of the series. A central question drives each unit and these unit questions are framed to engage and sustain student interest. They do not have one right answer, but serve as a gateway into focused, accurate, and meaningful language production.

Q: Skills for Successは、探究学習のアプローチを取り入れており、ユニットのはじめに出てくるクエストが中心となりレッスンが進んでいきます。このクエストは一つの正解があるわけではなく、学習者の興味を引きつけ、学びを深めるきっかけとなり、英語学習のための入り口となります。

3A Reading Textbooks (2)

Academic textbooks present information and, to some extent, arguments and opinions. Paragraphs in textbooks typically have one *main idea* (usually expressed in a *topic sentence*), plus some *supporting evidence*, often involving reasons and examples. To gain an overview of the text, it is important to work out what are the main ideas and the supporting evidence. You also need to understand the author's *stance* (or point of view), and how using specific language can change the author's meaning.

This module covers:

- Identifying main ideas and supporting evidence in a text
- Building word families
- Using adverbs to express stance

TASK 1 Gaining an overview of a text

- You are going to read a short text entitled *The print revolution*. Decide which of the items below you would expect to be included. Add any others, and give reasons. where and when printing developed how printing developed the future of printing the most popular printed books printing technology the main languages in print
- Read Text 1 and check your predictions in 1.

The print revolution

- The earliest known book was printed in China in the year 868 and metal type was in use in Korea at the beginning of the fifteenth century, but it was in Germany around the year 1450 that a printing press using movable metal type was invented.
- Capitalism turned printing from an invention into an industry. Right from the start, book printing and publishing were organized on capitalist lines. The biggest sixteenth-century printer, Plantin of Antwerp, had twenty-four printing presses and employed more than a hundred workers. Only a small fraction of the population was literate, but the production of books grew at an extraordinary speed. By 1500, some 20 million volumes had already been printed (Febvre and Martin 1976).
- The immediate effect of printing was to increase the circulation of works that were already popular in a handwritten form, while less popular works went out of circulation. Publishers were interested only in books that would sell fairly quickly in sufficient numbers to cover the costs of production and make a profit. Thus, while printing enormously increased access to books by making cheap, high-volume production possible, it also reduced choice.
- The great cultural impact of printing was that it facilitated the growth of national languages. Most early books were printed in Latin, the language of educated people, but the market for Latin was limited, and in its pursuit of larger markets the book trade soon produced translations into the national languages emerging at this time. Printing indeed played a key role in standardizing and stabilizing these languages by fixing them in print, and producing dictionaries and grammar books. Latin became obsolete as national literatures were established in the sixteenth century.

Sources: Fulkner, J. & Scott, J. (2011), pp.370-1, Sociology (4th ed.) Oxford: Oxford University Press.

- What is the main purpose of Text 1? To offer:
 - a description of the development of printing
 - a comparison between the contributions of different countries
 - an evaluation of capitalism and printing
 - an argument for the importance of printed books.

これから英語の読書を始める幼児向けのリーダーシリーズ

■ Stories features popular characters from the Nickelodeon television series *PAW Patrol*, *Blaze and the Monster Machines*.

■ Focus on common words and phrases, which introduce children to English letters and sounds. The gradual progression and vocabulary repetition teaches children to recognize and understand common words.

■ Illustrations help children to easily connect the words to pictures which is key for young learners of English as a foreign language.

■ ニコロデオンのテレビアニメ作品「パウ・パトロール」、 「ブレイズ・モンスターマシン」のキャラクターが登場します。

■ 日常的な言葉やフレーズが使われているストーリーを通して、英語の文字や音に触れることができます。また、同じ語彙・表現が繰り返し登場するので、子どもたちは日常的に使用する言葉を徐々に理解し、認識できるようになります。

■ 英語を外国語として学習する幼児にとって、魅力的なイラストは単語と絵を結び付けるのにとても大きな役割を果たします。

Stories include picture dictionary, follow-up language and comprehension activities and a code to download story audio, Teacher's Guide, Parent's Guide and Parent's support videos.

Peter and the children flew out of the room and down the river – then out over the sea. They flew for many days and nights. They were hot, then cold, then hot again.

The children couldn't fly fast, and they often hit **clouds**. Sometimes Peter was bored, so he flew away from them and had **adventures**. Many times, he nearly forgot about them!

cloud a big white or grey thing in the sky
adventure something very exciting that happens to you

Once, Michael began to sleep. He **fell** down and down to the sea. Peter watched him and laughed!

Seconds before Michael went into the sea, Peter flew down and caught him.

Holmes smiles. 'That's interesting. But I must work now, and you must leave. Please close the door after you.'

Roylott does not leave. He walks to the chimney and takes the metal **poker** in his hands. He **bends** it quickly with his two big hands. Then he **throws** it down at his feet.

'I'm leaving because I want to leave, not because you tell me!' he cries angrily. 'Be careful, Mr Holmes!' Then he walks out of the room, looking all the time at Holmes.

'My poor poker,' Holmes says quietly, walking to the chimney. He is not a big man, but he takes the poker and quickly unbends it again. Watson's mouth opens and Holmes begins to laugh.

'I'm not afraid of Roylott, Watson! But I need to know something about his wife's **will**. I'm going out now.'

Please refer to page 95 for details on ordering books in Japan.

OXFORD UNIVERSITY PRESS COPYING GUIDELINES

International copyright law allows a reader to make a single copy of a part of a book for purposes of private study. Unless explicitly stated, the copying of entire books or the making of multiple copies of extracts is not permitted by law. Please refer to the copyright statement found in each publication for details on what is permitted.

In the case of audio recordings, it is permissible for a school to make one copy of an audio tape or CD, keeping the original as back-up. Only one copy may exist at any one time. A school may copy different parts of the original audio into several places, providing that no part of the original exists in more than one copy at a time. Therefore, if a school wishes to make three copies of even one part of an audio, it must possess three originals.

No copying, single or multiple, of software, video or DVD is permitted.

It is illegal to make copies of our programs. You may not copy disks of our software programs other than to make one copy for back-up purposes. Oxford University Press Japan would like to thank you for your commitment to upholding copyright. Please contact us if we can help you with advice.

For teachers with copyright permissions enquiries including examination papers.

Use of OUP copyright materials for examination purposes requires sufficient acknowledgement of the source. Prior permission must be obtained for reproduction of examination papers which contain OUP materials. Please contact the following organization if you have questions about this matter.
