# What is the Classroom Presentation Tool?

The Classroom Presentation Tool is an exciting resource accessed on Oxford Learner's Bookshelf. You can download Classroom Presentation Tool onto your computer or tablet, enabling you to show your course content on screen during lessons.

This is supported by easy-to-use digital features, including audio and video, and annotation tools, helping you to deliver smooth lessons time after time.

Classroom Presentation Tool encourages whole class participation. The content helps you create an inclusive learning environment in which every student feels empowered to get involved. Classroom Presentation Tool functionality differs across courses. Contact your local OUP office for more information.

Easily access the full range of audio and video, removing the need to move between multiple resources during lessons and saving you time. You can also speed up or slow down the audio to tailor lessons to your students' listening levels, and record students speaking to work on their pronunciation skills.

Available online and offline, the Classroom Presentation Tool makes lesson planning and teaching easier than ever before. Classroom Presentation Tool is compatible with a range of devices, and synchronises work between devices to allow you to prepare for lessons outside the classroom. Purchase your access code to get started!
